ADR CD Jet TM
Automatic CD / DVD / BD Printer

Together with Hewlett Packard we developed the new CDJet 100 CD / DVD Autoprinter . This machine is the best affordable solution when it comes to in-house production of your optical discs. Not only purchasing costs but also the consumption costs find no match in the industry.

About the printer

The ADR CDJet 100 supports HPs patented PhotoREt IV colour layering Technology, which allows you to print photorealistic labels.

Standard cartridges

Using standard off-the-shelve cartridges, the ADR CD Jet autoprinters can reduce your disc printing costs up to 60 % compared to competitive products in the market.

Specifications

- * Supported media: inkjet printable discs 120mm
- * Disc thickness: 0.046-0.053 inch (1.17mm-1.33mm)
- * Disc capacity: 50
- * Maximum Resolution: 4800 DPI
- * Supported cartridges: black: HP56 (C6656A)
tri-color: HP57 (C6657A)
- * Physical specifications: Width: 17.7inches(450mm)
Height: 9.5inches(240mm)
Length: 20.7inches(525mm)
- * Electrical specifications: Input voltage: 100-240V AC
Input frequency: 50-60 Hz
